## **LabTech Software**

[www.labtechsoft.com](http://www.labtechsoft.com)

LabTech was designed and written by System Administrators with the goal of making IT support simpler. The mission of LabTech is to become the standard tool used by IT professionals internationally. LabTech is building a community of very talented System Administrators around the world to collaborate to lead the IT industry into the Managed Services space and beyond. LabTech is and will continue to be the most powerful IT management tool in existence at a price all businesses can afford.

## **Telco**

### **Comcast**

[www.comcast.com](http://www.comcast.com)

Comcast is one of the country's largest provider of cable services - and one of the world's leading communications companies. They deliver TV, high-speed Internet and digital phone to millions of people.

In 2012, Comcast launched X1, a cloud-enabled video platform that transformed the TV into an interactive, integrated entertainment experience. In 2014, Comcast will introduce the next generation of the X1 entertainment operating system designed to make navigation, search and discovery of content easier and quicker than ever before. Featuring a new, sleek and customizable user interface that will be consistent across devices, customers will be able to manage all of their content from any screen, anywhere, anytime.

## **AT&T**

[www.att.com](http://www.att.com)

AT&T is recognized as one of the leading worldwide providers of IP-based communications services to businesses. They also have one of the nation's most reliable 4G LTE network as well as the largest international coverage of any U.S. wireless carrier, offering the most phones that work in the most countries. AT&T owns and operates more than 34,000 Hot Spots at popular locations such as restaurants, bookstores, hotels and more. AT&T customers can enjoy access to more than 1 million Hot Spots globally through roaming agreements.

## **Infrastructure**

### **VMware**

[www.vmware.com](http://www.vmware.com)

VMware is the global leader in virtualization solutions from the desktop to the data center, with 2013 revenues of \$5.21 billion, more than 500,000 customers and more than 55,000 partners. Customers of all sizes rely on VMware to reduce capital and operating expenses, ensure business continuity, strengthen security and go green.

### **Citrix**

[www.citrix.com](http://www.citrix.com)

On April 17, 1989, Citrix was founded by three entrepreneurs with a far-reaching dream. That dream was to invent technologies that would give people the freedom to work the way they wanted. Since the start, we have believed that work is not simply a place, and that our inventions could empower people, by allowing them to choose how, where and when they work.

Today, Citrix is at the epicenter of the mobile and cloud revolution. Our products span virtualization, networking, cloud and mobility, enabling people to work and collaborate anywhere, anytime and on any device. We believe passionately in our vision of mobile workspaces and their ability to help people, IT and businesses reach their full potential and we are inspired by the ways you, our customers, are using these solutions to help people work better, and to live better.

## **3CX**

<http://www.3cx.com/company/about/>

3CX was founded in 2005 by entrepreneur Nick Galea who saw the need for an open standard software PBX for Microsoft Windows. With 86.7% of businesses using Windows as their operating system, the need for a software-based phone system which runs on Microsoft Windows was evident. With the PBX market being solely proprietary and devoid of any innovation for the past thirty years, businesses were increasingly becoming frustrated as they needed an open standard PBX that would be affordable, easy to use, innovative and software based.

## **CISCO**

[www.cisco.com](http://www.cisco.com)

Cisco Systems, Inc. is a multinational corporation that designs and sells consumer electronics, networking, voice & communications technology and services. Cisco is one of the world's biggest technology corporations. SSL teams up with Cisco to provide the best Network Devices-Routers, Switches, Firewalls to clients.

## **IBM**

<http://www.ibm.com/us/en/>

IBM (International Business Machines) is an innovative multinational computer technology and IT consulting corporation headquartered in Armonk, New York, United States. The company is one of the few information technology companies with a continuous history dating back to the 19th century. IBM manufactures and sells computer hardware and software and offers infrastructure services, hosting services, and consulting services.

## **Public Cloud**
